Good day respected Mr. Ambassador.

Undersigner Andrei Gurao, born in city Makhik (Russia) at 9 of June 1945 with Subsidiarity protection in Romania, ask you and your Government of Mauritius about protection according Geneva Convention 1951.

At the present day I'm in redection center in Lyon Saint Exupery (France) under deportation from France to Romania because of I have Subsidiarity Protection from Russia in Romania from 01.08.2004. But unfortunately political situation in Romania has changed in last few weeks and Romanian authoritys start to receive Refugees from Ukraine (at the present day they are more then 100.000 persons). I'm a Russian citizen and have nothing against Ukrainean. Opposite, I'm against the politics of president of Russia Mr. Putin, but I have Russian citizen unfortunately and this point put me in dangerous situation in Romania. I've been apply for Asylum here, in France but been rejected because of Romania is European country.

I wish and hope, what finally I can go as far as I can from European Continent for safe my soul and continue my life as normal human.

I'm proffessor of dramatic theatre and classical dance (ballet), all my life I been work on the stage and created thousands of show's as on theatres some in cinema. I want to do the same and create the art school and theatre in your country Mauritius and teach young generation for history, literature and classical Art. You can look in the internet on Google: Andrew Guraff - who is he?

I looking for a safety place on the our eath and pray to the Lord everyday, but reality in this moment for me in darkness.

Please, help me! I need protection for survive on our planet and continue my life with pride.
