

copy Swiss Embassy

Good Day Respected Mr. Ambassador!

My name is Andrei Gurov, born in Russia on 9 June 1945. I'm writing this letter to express the distress and injustice I'm facing since 04.10.2021. On this date I was in Geneva city waiting on the train station to change my train to Bern, and meet my friend who is the director of "russian star ballet" and the lawyer Philippe Bopard concerning my application for asylum on this date in Geneva too.

After that, about 16:50(+/-) a man walks towards me. He is from french douane (P.A.F.) and start talking about my dog. He ask me if I was aware of the rules concerning Rottweiler in Geneva canton? I said yes, I know the rules but I'm just in transit Geneva and in Bern this race is not forbidden and my dog was with the mask. And is a part of family and he often participate in dog show. He was even twice winner of champion of Europe and absolute champion of Italy. I told to this guy that my dog have all documents needed to travel and ask him how can he have the right to control our documents as I was in Switzerland and he is from french custom. I also explain him that this dog is absolutely legal in Bern city, my destination.

The French custom officer gets upset and ask for my identity and I gave him my travel documents. I explained to him that my passport just expired on the 1-st october, so I have no available documents at this moment for my self, not for dog.

So, he took my passport and told me to follow him inside the station.

When we arrived there he make a copy of my ID, then he made a telephone call and he came back to me and said to me show the my hands to him. He immediately put the handcops and told me that from that moment I am arrested because I was once controled by french customs and lost my tiket. (not true)

I ask him immidiatly to call the swiss police as I was not in french territory (Geneva train station). He laughet, then refused to allow me call swiss police and force me to enter a train with my dog and luggage. He told me what french custom have more power than Swiss police which is nothing.

On the next station we were already in france and one of his colleagues was waiting for us when we arrived there. After they made a report full of false informations that I was traveling with an expired passport and I crossed french borders illegally. They were forced me to came in france illegally but reported like me coming. They arrested me in Geneva and was bringing in france by them.

So - I was kidnapping. After this they call police (french one) and send me with them to another city.

Me and my dog was arrived in Gandarmerie and then they took with force my dog out of me. and next day transfer in "Baz en Brie" prison.

I didnt known wat was judged in france for 6 month in prison. for traveling several times in train withoout tiket. So for this rison they put me in prison. and put my dog in special centre for animals in Oyormex. till I'm in prison. I'm back from prison at the 14.02.2022 (after 4 month). Now I'm in Retention centre as the prefecture considers

that I've illegally crossed french borders which is completely false and don't want to give my dog back. They said that my dog is no more my property as they didn't mentionned to the tribunal that me and my dog were kidnapped from Geneva.

The judge stated that as my passport is expired and don't have a house in france, they will keep me in retention till deportation. They don't want to here what I not wished to come in france but wished to ask asylum in Swiss, but on that happened situation every think is changed I finally I apply for asylum here in France. All documents about my illegal arrestation dissapeared. They hide this kidnapping from a justice and the same time covering the illegal thinks they do by law.

I'm asking for your help to deal with this nightmare as your sir can have access to CCTV camera in train station in Geneva city on the 04.10.2021 to see and prove my illegal kidnapping by french customs. I'm sure respected Mr. Ambassador what your pay close attention to human rights and wont tolerate injustice that was done by french customs on swiss territory.

I will send a copy of my O.F.P.R.A. verdict to journalists and hope one will be attached to this letters that everyone can be aware of this illegal situation happened with me in Swiss by french.

As I said previously my dog is part of my family and will not be able to live without him.

To Mr. Ambassador with this letter I
announce you what is happened in Swiss and you
will see what your country not considered by
French like a country of freedom and human
rights.

On my self I've seen - no nothing power,
human rights or democracy as in Europe, same
in Swiss - especially Geneva city "City of peace".

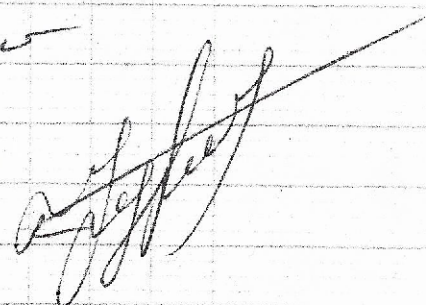

Or I'm wrong? If I'm wrong and some
country respect human rights, especially Swiss
(Geneva Convention 1951) - please reply me and
I will pray for blessing Swiss.

At this moment I see what French
authorities feeling in Swiss as at their home
and do not respect international rules which
they signed. They laugh on the Swiss police...
So, how it is possible to be kidnapped
from country and hidden this???

Do some thing, Please!!!

Respectfully: Andrey Garov

Retention Center in
Lyon St. Exupery.

21.03.2022.

P.S. In case if you want to get contact with me
you can call me on the number:
